DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.

The primary reasons for allowance of claims 1, 5, 11, 16, and 19 in the instant application rest at least in the combination with the inclusion of the limitation that “to maintain data relating to a set of branches...wherein said set of branch entries include a first number of entries...an array able to maintain a set of iteration entries...wherein said set of iteration entries includes a second number of entries smaller than said first number of entries.” The prior art of record neither anticipates nor renders obvious the above-recited combination. It is noted that the exact recitation of the above limitations is not present in all the independent claims, but all the independent claims do contain limitations similar to what is reproduced above.

Because claims 2-4, 6-10, 12-15, 17, 18, 20, and 21 depend directly or indirectly on any of the claims 1, 5, 11, 16, and 19, these claims are considered allowable for at least the same reasons noted above with respect to claims 1, 5, 11, 16, and 19.
